

TYPE APPROVAL CERTIFICATE

Certificate no.:
TAM000002Y
Revision No:
10

This is to certify:

that the **Thruster Components**

with type designation(s)

Pinions for Thruster steering

issued to

Dinamic Oil S.p.A.
Bomporto, MO, Italy

is found to comply with

DNV rules for classification – High speed and light craft

DNV rules for classification – Ships

Application:

Pinions for Thruster steering (see page 2 for details)

Products approved by this certificate is accepted for installation on all vessels classed by DNV and/or GL.

Issued at **Hamburg** on **2026-03-20**

for **DNV**

This Certificate is valid until **2031-03-02**.

DNV local unit: **Venice**

Approval Engineer: **Christof Kotzmann-Bendrien**

Digitally Signed By:
Sven Klinger
Location: DNV Hamburg,
Germany

This Certificate is subject to terms and conditions overleaf. Any significant change in design or construction may render this Certificate invalid.

Marking of product

The product to be marked with manufacturer's name or trademark and type number identification

Periodical Assessment

For retention of the Type Approval, a DNV surveyor shall perform an assessment after 2 years and after 3.5 years to verify that the conditions of the type approval are complied with. A renewal assessment will be performed at renewal of the certificate.

The objective of the Periodical Assessment is to verify that the conditions for the Type Approval are not altered since the Type Approval Certificate was issued. The main scope of the Periodical Assessment will normally include:

- Verification of the Type Approval applicant's production and quality system w.r.t. ensuring continued consistent production of the Type Approved products at the Type Approval applicant's own premises and at other companies that are given the responsibility for manufacturing of the products.
- Review of the Type Approval documentation and that this is still used as basis for the production
- Review of possible changes to the design, the material and the performance of the product
- Verification of the product marking.

In cases where the Type Approved product is manufactured at other companies, the Periodical Assessment shall verify that the Type Approval applicant has a quality control system for consistent production at their licensees/subcontractors. Furthermore Periodical Assessment shall be carried out randomly at these companies.

When a Type Approved product is manufactured at other companies, the Type Approval applicant takes the sole responsibility for the conformity of the product to the applicable requirements.

Other Conditions

Slewing ring is not included in this certificate and shall be submitted for approval for each installation with relevant gear data sheet for gear calculation.
